ABOUT COMMS COUNCIL UK

Comms Council UK is the voice of the next generation communications industry. We are a membership-led organisation that represents and supports telecoms companies who provide services to business and residential customers in the UK.

We keep Britain talking by providing and reselling voice services over data networks (VoIP) as well as other "over the top" applications like instant messaging and video. We began back in 2004, and have grown from a founding group of 12 members to a thriving trade association representing 100+ companies in this extremely dynamic industry.

Our membership is a mixture of network operators, service providers, resellers, suppliers and consultants, and we represent them at a policy level. We build coalitions to collaborate on industry initiatives and provide our members with a platform to prepare for change, learn about new trends and develop new business relationships.
