About CCUK

Comms Council UK is a membership-led organisation that both represents and supports telecommunications companies that provide services to business and residential customers in the UK.

We keep Britain talking in its various guises by providing or reselling voice services over data networks (VoIP) as well as other “over the top” applications including instant messaging and video.

Comms Council UK represents its members at a policy level, builds coalitions to collaborate on industry initiatives and provides a platform to help members prepare for change, learn about new trends and develop new business relationships.

We are a sigantory of the Government’s Telecoms Fraud Charter and recently we launched data sharing guidance on fraud for telecoms providers which we developed with Ofcom and the Home Office.

About the CCUK Fraud Summit

Comms Council UK is a major voice to government on tackling telecommunications fraud.

The CCUK Fraud Summit is an annual event that welcomes 150 attendees each year, including representatives across sectors such as telecoms and banking, as well as regulators, law enforcement bodies, and civil servants to share insights on how to tackle fraud effectively.

Lord Hanson, Fraud Minister, is a recurring keynote speaker. Previous speakers include representatives fromBarclays, Stop! Think Fraud, Home Office, Ofcom, National Crime Agency, ICO, UK Finance, Virgin Media O2, Gamma, Smartnumbers, PXC, XConnect, Vonage and many others.

The third Fraud Summit will take place on 15th March 2027 in central London at RUSI (The Royal United Services Institute), the world's oldest and the UK's leading defence and security think tank.
