THE VOICE OF ADVANCED COMMUNICATIONS

ABOUT THE WOMEN IN TELECOMS

EMPOWER.

We're committed to empowering women in telecoms by providing opportunities for professional development, leadership, and skills growth. Through education, resources, and networking, we help women to make their mark in our industry.

SUPPORT.

We're here to support women at every stage of their career journey. From mentorship programs to wellbeing initiatives, we create a community where challenges are met with guidance, and success is celebrated together.

INSPIRE.

We're inspiring women to pursue their ambitions and break barriers in telecoms. By showcasing the achievements of women and fostering a culture of innovation, we spark new ideas and drive change within the industry.

Our aim for this group is to provide a tangible way for members of the telecom industry to show commitment to women's development.

Please help us by encouraging all the women in your teams to join our Women in Telecoms community.

Together, we can help one another achieve career goals and amplify our voices on key industry issues.

The group is open to the wider telecoms industry, and we welcome non-CCUK members to join and participate. We now have over 250 members.
